

Jim Doyle, Governor
Mary P. Burke, Secretary

Wisconsin Department of Commerce, Bureau of PECFA Bid Document

SECTION 1 - Scope of Work

The Bureau of PECFA is seeking competitive bids to perform remedial services for a petroleum release from a regulated petroleum product storage tank system. This bid is for a specified work scope. The site upon which bids are being solicited is:

Bid Round: 47
Comm #: 53910-1039-60-A
BRRTS #: 03-01-000521
Site Name: Auto Aid Parts
Site Address: 260 S Main St, Adams, 53910
Site Manager: Tom Hvizdak
Address: 473 Griffith Ave
City, State Zip: Wisconsin Rapids, WI 54494-7859
Phone: 715-421-7850
e-mail: tom.hvizdak@wisconsin.gov
Bid Manager: Brian F. Taylor
Address: P.O. Box 8044
City, State Zip: Madison, Wisconsin 53708-8044
Phone: (608) 266-0593
e-mail: Brian.Taylor@Wisconsin.Gov

Bid-Start Date:	January 22, 2007
Questions must be received by (See Section 2 (B)):	February 05, 2007 4:00 PM
Responses will be posted by (See Section 2 (B)):	February 23, 2007
Bid-End Date and Time:	March 09, 2007 4:00 PM

The case file, including report(s) and other pertinent information upon which bids are being sought, are available for review at the Site Manager's location listed above. Please contact the Site Manager for an appointment to review the file.

Copies of report(s) and other pertinent information are available for purchase at the location listed below. If pertinent information is not available, please contact the Site Manager.

Digicopy-Stevens Point, 257 Division St, Stevens Point, WI 54481
Phone: (715) 295-9606 Fax: (715) 295-9609

SECTION 2 – Site-Specific Bid Requirements

General Comments

Site Description:

The site is a former gas station located in Adams, Wisconsin. The contaminant plume from another former gas station located across the street to the south is co-mingled with the plume from this site.

Geology/Hydrogeology:

There are 2 unconsolidated, sand aquifers separated by a clay aquitard extending from approximately 30 to approximately 40 feet below grade. The groundwater gradient for both unconsolidated aquifers is to the northwest.

Soil/Groundwater Contamination:

Soil contamination extends off-site. Groundwater contamination has been observed in both sand aquifers and extends off-site. Free product has been observed in one on-site well (MW-1) and 2 off-site wells (MW-4 & MW-9).

Monitoring Well Network:

There are 15 watertable monitoring wells and 3 piezometers associated with this site.

Environmental Factors Present:

Free product verified on more than one sampling

Other:

Documents Available at Copy Shop

Tables and figures from September 22, 2005, site investigation report.

Minimum Remedial Requirements

File Review

A review of the entire DNR file for this site is required within 30 days after the contract to proceed with the bid scope of work is signed by the RP.

Groundwater Sampling

Conduct 2 years of quarterly groundwater sampling (8 rounds) from monitoring wells MW-1, MW-2, MW-4, MW-5, MW-9, MW-11, MW-12, MW-14, MW-15, PZ-1 (Auto Aid), PZ-2, and PZ-3. Also sample PZ-1 located at the property known as Scotty's Realty, this well is nested with Auto Aid Parts monitoring well MW-5.

Conduct 2 years of annual groundwater sampling (3 rounds conducted during the 1st, 5th & 8th rounds of the quarterly sampling) from monitoring wells MW-3, MW-6, MW-7, MW-8, & MW-13.

Analyze groundwater samples for PVOCs and naphthalene.

During each quarterly groundwater monitoring event, at all monitoring wells, measure and record water levels.

During each annual groundwater monitoring event, at all monitoring wells, measure and record dissolved oxygen, pH, and oxygen reduction potential. (Field parameters are to be measured with a flow through cell or down-hole meter.)

Containerize and dispose of purge-water.

Product recovery as needed during all quarterly groundwater sampling events.

Free Product Abatement

Measure and recover free product via bailing in monitoring wells that contained historical free product, during each groundwater sampling event.

In the event product is observed in any of the monitoring wells, a passive product collector (absorbent socks) must be placed in the well (be prepared to install product collection devices during each sampling event).

Within one week of the event, fax or e-mail to DNR and Commerce a one-page summary and table of dates, product thicknesses and recovered amounts of product and product-water mix. Requirement for additional product recovery will be based on results of this work.

Include contingency costs for a per event (not during a groundwater monitoring event) cost for product recovery conducted during non-groundwater monitoring events.

Containerize and dispose of product-water mixture. For bid purposes assume 50 total gallons of product-water mix to be disposed.

Reporting Requirements

In the event free product is observed during any of the quarterly monitoring events, DNR and Commerce must be notified within 7 days via e-mail.

Submittal of an annual status report is required within 45 days after the 4th quarterly sampling event.

After the final sampling event evaluate as to whether the site meets the requirements for closure, and if so, prepare a case summary and closeout request. If the case does not appear to meet the requirements for closure, submit a brief written progress report. Closeout request or progress report must be submitted within 30 days of receiving final laboratory results.

Site Closure Costs

For bid purposes submit a separate cost for closeout, including well abandonment, waste disposal, notifications, GIS documentation.

SECTION 3 - Reporting Timeframes

Within *60 days* of the Commerce notification of the maximum reimbursement amount, the responsible party (RP) must execute a written contract with one of the firms that submitted a bid. Failure to execute the written contract within this time will result in ineligibility of interest expenses incurred from the date of the reimbursement cap letter until a contract is executed and work commences at the site. Work must commence within *45 days* of signing a contract. There are specific reporting requirements in Comm 47.70 to monitor the progress of activities at each bid site and there may be additional reporting requirements outlined above. The consulting firm that is contracted to complete the scope of work is required to report the progress of this site to Commerce electronically on the web site at each of the following points:

1. Within fourteen days of executing or terminating a contract with the RP.
2. Three months after entering into the contract with the RP.
3. Twelve months after beginning the work in the successful bid, unless the project is completed before that time (point 6 applies).
4. Twelve months after submitting the previous report (point 3), unless the project is completed before that time (point 6 applies).
5. No later than 10 days after encountering a change in circumstances (the list of circumstances is in Comm 47.70 (3)).
6. No later than 30 days after completing the work.
7. As directed by Commerce.

If Commerce determines that the consulting firm is failing to make adequate progress to complete the scope of work, Commerce will notify the RP and may reduce the reimbursement to accurately reflect the work completed.

If Commerce determines that the consulting firm is failing to make adequate progress to complete the scope of work, Commerce will notify the RP and may reduce the reimbursement to accurately reflect the work completed.

Claim Submittal

A claim must be submitted to Commerce within 120 days of submitting the report described in *Reporting Timeframe, point #6*. If a claim is not submitted by the deadline described above, interest costs from the date the report (point #6) is submitted to the date the claim is received will not be reimbursed to the claimant. The claim preparation cost must be included in the Total Bid Amount and is considered within the reimbursement cap.

Questions and Answers

Questions, answers and interpretations will be considered an amendment of this solicitation. All questions must be submitted in writing (fax and electronic mail submittals are acceptable) to the Bid Manager identified in Section 1 of this solicitation. All answers and interpretations shall be in writing from the Bid Manager. Neither the PECFA program nor Commerce shall be legally bound by any amendments or interpretations that are not in writing. Bidders are not to contact other personnel located within the Department of Commerce/Bureau of PECFA concerning the site or the bid solicitation between the Bid Announcement Date and Bid End Date. No further

questions will be addressed after the deadline for submitting questions identified in Section 1.

SECTION 4 - Conditions of Bid

The successful bidder will be the entity that complies with all provisions of the bid and provides the lowest total cost, excluding interest, for the site-specific bid requirements described in Section 2. In preparing the bid, the bidder must assume compliance with all applicable codes, including, but not limited to, §Comm 46, §Comm 47, and §NR 700 Wis. Admin. Codes.

The bid Commerce selects to determine the least costly method of remedial action will be the least costly qualified bid. Commerce will rank the bids solely on the basis of cost. Evaluation of bids will continue until the least costly qualified bid is identified. Submittals from an individual or firm during their period of disqualification from bidding, submittals received late and for submittals without a certified commitment (performance assurance and/or signature) will not be considered as bids. Commerce may disqualify a bid for the following reasons:

- Requirements of the bid specifications have not been met.
- The remedial strategy is not appropriate to the geologic setting.
- A Total Bid Amount is insufficient to fund the activities described in the bid specifications.

Commerce reserves the right to reject any and all bids.

Any proposed technology or methods used in the remediation must be allowed for use in the State of Wisconsin and approvable by the agency with jurisdiction (Natural Resources or Commerce).

The bidder Commerce intends to select may be required to provide input to and attend a meeting with the PECFA program and the claimant to explain the bid and remedial approach.

If a bid is disqualified, Commerce will provide written notification to any individual or firm that submitted a disqualified bid. The notification shall specify the reasons for the disqualification, and inform the individual or firm of their right to protest or appeal the decision. If a bid is more costly than the bid Commerce intends to select, the bid will not be reviewed.

The *Notice of Intent* will identify the least costly bid, disqualified bid(s) and bid(s) not reviewed. The *Notice of Intent* will be sent to the RP and will be posted on PECFA's Internet Web site.

SECTION 5 - Instructions to Bidders

Between the bid start and end dates, bidders shall not discuss or attempt to negotiate any aspects of the bid with the RP, other potential bidders or program staff without prior approval of the Bid Manager identified in Section 1. Infractions will result in rejection of the violator's bid and may result in a formal complaint being filed with the Department of Regulation and Licensing.

If access to the site is necessary for the preparation of a bid, access shall be arranged through the Bid Manager. If the Bid Manager is not able to arrange site access, this will not delay the bid process nor negate the comparison and selection from among the bids

submitted. All costs associated with a site visit or preparation of a bid will be the bidder's responsibility.

The Bidding Process must conform to the following:

1. The Bid Response shall address all the site-specific bid requirements identified in Section 2.
2. The total bid amount to accomplish the stated goal must include all fees, reporting costs, pre- and post-closure costs and costs for establishing restrictions or institutional controls, when applicable (interest costs are excluded).
3. The submittal must include a copy of the Bid Response document signed by a Professional Engineer, Professional Geologist, Hydrologist or Soil Scientist licensed by the State of Wisconsin. The appropriate registration number of the professional license must be included. Registration requirements are listed in Comm 5.
4. Bids *cannot* be faxed directly to the program. Documents received by fax will not be considered.
5. Bids, amendments thereto or withdrawal requests must be received by 4 pm on the bid end date.
6. The consulting firm's name must be included and all pages of the Bid Response.
7. All costs must be printed (ink, typewritten or computer). Errors must be crossed out, corrections entered and initialed by the person signing the bid. Correction fluid is not allowed. No bid shall be altered or amended after the time specified for the bid end date.
8. Each bidder shall fully acquaint themselves with conditions relating to the scope and restrictions attending to the execution of the work under the conditions of this bid. The failure of a bidder to acquaint themselves with existing documented conditions shall in no way relieve any obligation with respect to this bid.
9. All amendments to and interpretations of this bid shall be in writing from the Bid Manager. Neither Commerce nor the program shall be legally bound by any amendment or interpretation that is not in writing.
10. This bid is intended to promote competition. If the language, specifications, terms and conditions, or any combination thereof restricts or limits the requirements in this bid to a single source, it shall be the responsibility of the interested bidders to notify the program in writing so as to be received five days prior to the opening date. The bid may or may not be changed; however a review of such notification will be made prior to award.

SECTION 6 - Bidder Disqualification

Commerce may disqualify from public bidding any individual or firm that has committed any of the following (Comm 47.67 (1) (a)):

1. Failed to complete the scope of work within the reimbursement cost cap established through public bidding.
2. Failed to complete the scope of work in a bid in a timely manner.
3. Failed to follow DNR rules on the bid project.

4. Received one or more notices from Commerce under s. Comm 47.62 (2) that assess the financial management of an investigation as unacceptable.
5. In any prior occurrence that has been publicly bid, failed to do either of the following:
 - a. Pay subcontractors after receiving payment for them.
 - b. Obtain lien waivers on or before the date of the final payment by the RP or the PECFA program, from all subcontractors paid under subd. 5. a.
6. Failed to execute a contract with the RP as required in s. Comm 47.69 (1).
7. Failed to commence work within 45 days after executing a contract, as required in s. Comm 47.69 (3).

Commerce may disqualify any individual or firm from performing further work on a project if the individual or firm has not completed any of the six reporting points required in Comm 47.70 and outlined in Section 2 of this bid document. Commerce will review and address the issue as stated in Comm 47.70 (4).

A bid will be considered non-compliant if the bid response does not include a separate tabulation of costs for each activity.

1	2 years quarterly and annual groundwater monitoring	
2	Free product abatement (during groundwater sampling events)	
3	Reporting	
4	Site Closure (if applicable)	
	Total Costs	
	CONTINGENCY COSTS	
	Free product abatement during non-groundwater sampling events (maximum of 6 separate events)
